

# 2017 5<sup>th</sup> International Symposium of Engineered Regenerative Medicine

## "A New Era of Creative Regenerative Medicine"

Date\_ **Oct 23 (Mon), 2017** (13:00~18:00)

Place\_ **Room 151 (1F) Yulgok Hall, Ajou University**

Program /

13:00~14:00	Registration			
14:00~14:10	Opening Remark: Sangdun Choi (Director of the Molecular Science and Technology Research Center)			
<b>Session I</b>		<b>Enabling Biomedical Engineering</b>		<b>Chair</b>
14:10~14:40	J.F. Mano (University of Aveiro, Portugal)		Advanced Polysaccharide-based Structures for Tissue Engineering and Regenerative Medicine	Ki Dong Park Ajou University (Korea)
14:40~15:10	Toshihiro Akaike (FAIS Biomaterials Center, Japan)		Cadherin-Matrix Engineering in Cell-Recognizable Biomaterials	
15:10~15:40	Jin Woong Kim (Hanyang University, Korea)		Advanced Soft Biocolloids for Skin Applications	
15:40~16:00	Coffee break			
<b>Session II</b>		<b>Enabling Regenerative Medicine Engineering</b>		<b>Chair</b>
16:00~16:30	Nam-Joon Cho (Nanyang Technological University, Singapore)		Plant-Inspired Microencapsulation Strategies for Biotechnology Applications	Jae Ho Kim (Ajou University, Korea)
16:30~17:00	Byung-Soo Kim (Seoul National University, Korea)		Electro-active Regenerative Medicine	
17:00~17:30	Tan Lay Poh (Nanyang Technological University, Singapore)		3D Fibrous Scaffold for Soft Tissue Engineering	
17:30~17:40	Closing Remark: Bun Yeoul Lee (Director of BK21 Program)			

\* Free Registration

\* Information office : Molecular Science and Technology Research Center  
& Engineered Regenerative Medicine Research Center  
Na Han (mstrc@ajou.ac.kr, 031-219-2322)
